

Jason Catrambone, Fire Chief

PURPOSE:

The department must ensure that vital equipment, apparatus and resources are in working order and ready for emergency service. In addition, the ISO Grading Schedule requires regular testing and servicing of certain fire service resources. Additionally, other regulations and some grants require inspections and testing.

OBJECTIVE:

To ensure that all stations and companies are completing standardized annual testing and maintenance of fire hydrants, hose, apparatus pumps, ladders, etc.

SCOPE:

All Personnel
